

Digital Loop is a MarTech Agency from Munich with a focus on Tech SEO, Web Analytics, and Web Development. On the basis of these three disciplines, we consult start-ups as well as DAX companies to optimize their online channels and develop individual marketing solutions.

Currently we are looking for a Senior Tech SEO Consultant (f/m/d) with minimum five years experience.

Become a part of our growing international team. We are looking forward to your application!

Responsibilities:

- Active involvement in client projects from day one.
- Independent implementation of projects, including SEO migrations: You take responsibility for projects and implement them in collaboration with the team.
- Consulting DAX companies from the insurance, e-commerce and logistics sectors.
- Consulting and service for our customers with a focus on SEO optimizations.
- Planning and development of efficient marketing strategies, especially SEO measures.
- Development and implementation of successful SEO concepts.
- SEO: Ongoing analyses and technical SEO audits.
- Coordination of tasks and coordination with IT

Qualifications:

- Motivation and commitment.
- Minimum five years experience in SEO.
- Experience with relevant SEO tools (e.g. Search Console, Screaming Frog, Browser Dev Tools).

- Independent, analytical, structured, and goal-oriented working method.
- Confident manner towards cooperation partners and clients as well as at presentations.
- Basic knowledge of HTML, CSS, JavaScript.
- Excellent command of English, confident command of German is a plus.

Benefits:

- An interesting position with considerable design freedom in a highly motivated international team (Germany, Portugal, Ecuador, and Turkey).
- An environment which allows you to take responsibility and show initiative.
- Beautiful office in the heart of Munich with a view over the Isar.
- Hybrid work model (office/home office) or remote possibility.
- Excellent educational and training offerings.
